

## Firm Overview

Barry Black has extensive experience in defending people arrested and charged with crimes, as well as in representing the interests of those who have suffered personal injury. Mr. Black relentlessly pursues justice for his clients, and strives to make their experience with the legal process as worry-free as possible.

Work directly with an experienced attorney &ndash; Our clients work closely with an attorney &ndash; not a paralegal or office administrator. Clients deserve to have a qualified, experienced attorney available each step of the way to explain the process, present options and assist with making decisions that are best in both the short and long terms.

Be fully informed &ndash; The legal system can be overwhelming and intimidating. We will lead you through the process and assist you in determining your best legal options. You will receive copies of all relevant documents and be apprised of all significant aspects of the case.

Be treated with dignity and understanding &ndash; An ordained minister, Barry Black understands that all people are susceptible to mistakes, and that being a defendant in a criminal or civil case is certainly not the same as being guilty. We aggressively pursue our clients&rsquo; interests while assuring that they are fully informed and comfortable with every decision.

We serve clients in Manhattan, Brooklyn, Queens, The Bronx, and Staten Island, as well as Nassau County and Suffolk County.
