

Drug Offenses

The Law Offices of Barry Black serves New York clients charged with drug possession and other drug-related offenses including:

- Trafficking
- Distribution
- Transportation for Sale
- Cultivation
- Manufacturing

Drug charges are often brought in conjunction with other criminal offenses such as robbery, burglary, assault, domestic violence and DWI, and they involve a variety of substances, including:

- Methamphetamine
- Cocaine
- Heroin
- Marijuana
- Club Drugs - MDMA (Ecstasy)
- Rohypnol (GHB)
- Crack
- Hallucinogens

There are many alternative outcomes to drug cases; Incarceration should be the very last option. Experienced defense attorneys know that many clients facing drug charges need help, not time. We often negotiate dispositions for our clients which result in the client getting help and the charges ultimately getting completely dismissed.

We serve clients in Manhattan, Brooklyn, Queens, The Bronx, and Staten Island, as well as Nassau County and Suffolk County.
